## Instructions

1. Print and cut out the Sleigh and the support strips.
2. Fold on the white line on the Sleigh
3. As best as you can, match the respective shapes and glue or tape the support strips to the wrong side of the Sleigh. This will help the Sleigh stay on Kai's Clan robot  
i.e. Match the ▲ support strip to the ▲ on the Sleigh  
Match the ● support strip to the ● on the Sleigh

Friendly reminder:

Younger kids, please ask an adult to help you with cutting. Be safe!
